

FOR IMMEDIATE RELEASE:

## **AMVAC Netherlands B.V. signs new agreement with UAP for the exclusive distribution of Impact® Corn Herbicide in Western Canada**

**December 16, 2013 – Oak Bluff, Manitoba** – United Agri Products (UAP) is pleased to announce the exclusive distribution agreement of IMPACT Herbicide from AMVAC Netherlands B.V., the International Sales & Marketing subsidiary of AMVAC Chemical Corporation, in Western Canada for the 2014 season.

A powerful force in post-emergence control, IMPACT® herbicide offers corn producers outstanding control of broadleaf weeds along with remarkable grass control. In addition, it sets the standard for safety in all types of corn. It is registered for field corn, both conventional and herbicide tolerant hybrids, sweet corn and seed corn hybrids and inbred lines.

IMPACT is a systemic herbicide that is absorbed by leaves, roots, and shoots and translocated to the growing points of sensitive weeds to provide post-emergence control of emerged weeds. In glyphosate tolerant fields, Impact is commonly tank-mixed with glyphosate and atrazine to provide both rapid burndown and overall improved weed control over glyphosate alone.

### About UAP Canada

United Agri Products (UAP) is a leading product management company of agricultural and non-crop inputs in Canada. Founded in 1978, UAP works with world-class global manufacturers to bring innovative solutions to the Canadian grower. Through its comprehensive line of proven crop protection products, including plant nutrients, herbicides, fungicides, insecticides and specialty products, UAP helps growers meet the challenges of higher crop yields and healthier production practices. These products are available to Canadian growers through national and regional dealers. UAP Canada is headquartered in Dorchester, Ontario, with regional offices in Oak Bluff, Manitoba and Langley, British Columbia and reps in every corner of the country. UAP is a member of Agrium family group of companies.

### About AMVAC Netherlands B.V.

AMVAC Netherlands B.V. (AMVAC) serves a healthy, demand-driven international agricultural market. In a world that requires ever-increasing quantities of agricultural products for human food, animal feed, natural fibers and alternative fuels, the key to success is enhanced productivity. From planting to harvest, AMVAC's products help meet that critical need by providing effective and diverse crop enhancement products. In addition, AMVAC produces and markets products that protect public and animal health, safeguard property from damaging pests and enhance the quality of the environment where we live and work.
