 = time of application

 = period of activity

FOLLOW THESE SIMPLE GUIDELINES FOR SUCCESS WITH **Casoron® G-4**

- Ensure that the granules are applied evenly, follow pattern shown on reverse side as a reference.
- Do not apply the granules in very windy conditions or when the foliage is wet.
- Avoid overdosing and overlapping in the vicinity of stems and trunks.
- Always keep the product dry.
- Do not disturb ground surface after applying the granules. *(i.e. NO digging)*
- Use as a post-planting treatment once shrubs are established.
- Do not apply to frozen, snow-covered or waterlogged soils.
