

GENERAL INFORMATION

ACTAGRO 6.5% ZINC is formulated in a patented process for the prevention or correction of zinc deficiencies in plants and may be effectively used for both foliar and soil applications.

ACTAGRO 6.5% ZINC can be used on all crops as a soil application.

ACTAGRO 6.5% ZINC is non-phototoxic when used as directed and may be combined with most pesticides and fertilizers.

ACTAGRO 6.5% ZINC rates should be reduced when compared to most other zinc chelates and complexes.

WARRANTY: Since weather, crops, soil and other conditions may vary, neither ACTAGRO, LLC, nor the Seller make a warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED. AVOID CONTACT WITH SKIN, EYES OR CLOTHING. In case of contact immediately flush skin, eyes or clothing with plenty of water for at least 15 minutes.

CAUTION: If any other chemicals are to be used in the spray mixture be sure to check compatibility. If stored below 0 degrees C, crystals may form in bottom of container. The crystals are readily soluble in water. This fertilizer contains zinc and should be use only as recommended. It may prove harmful when misused.

Application rate should be based on the results of soil and/or tissue analysis. User should seek the advice of the county agricultural representative or a professional agricultural consultant in order to determine the appropriate rates and frequency of product use.

MIXING INSTRUCTIONS

ACTAGRO 6.5% ZINC disperses well in water with a minimum of agitation. For best results mix as follows:

1. Partially fill tank with water or fertilizer and start agitation.
2. Add other nutrients or pesticides if compatible.
3. Add **6.5% ZINC** to circulating tank mix.
4. Fill tank and agitate thoroughly.
