**EXTINGUISHING MEDIA:** Foam, CO<sub>2</sub>, dry chemical

**FIRE & EXPLOSION HAZARDS:** During fire, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.

**FIRE-FIGHTING INSTRUCTIONS:** Use positive-pressure self-contained breathing apparatus and full protective clothing. Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes or products of combustion. Prevent use of contaminated buildings, area, and equipment until decontaminated. Water runoff can cause environmental damage. If water is used to fight fire, dike and collect runoff.

If the container is leaking, secure leak and place the container into a drum or heavy gauge plastic bag. **For spills and leaks:** Contain the liquid with dikes of inert material (soil, clay, kitty litter etc.). Absorb the spill onto inert material and shovel into a sealable waste container. **On hard surfaces:** Sprinkle spill area with detergent and scrub in a small quantity of water with a coarse broom. Let stand 10 minutes then absorb onto an inert material and shovel into the waste container. **On soil:** Remove the top 15 cm of soil in the spill area and replace with fresh soil.
