

MARKER DYE

SPRAY MARKER INDICATOR

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS: Do not take internally. **If in Eyes:** Flush with large amounts of clean, flowing water and consult a physician. **If Swallowed:** Dilute by drinking water or milk and seek medical attention.

Refer to Material Safety Data Sheet (MSDS) for additional information regarding product safety and precaution. Do not re-use this container. Rinse contents into the spray tank and crush prior to disposal.

GENERAL: Flat fan spray tips are recommended when applying **MARKER DYE**. Increased volumes of spray solution should be used when **MARKER DYE** is applied to hard to mark areas. Longer or thinner stands of turf may be more difficult to mark due to the non-uniform marking surface. Increasing the total volume of spray solution applied to those areas will increase color visibility.

DIRECTIONS FOR USE: Experimentation with the volume of spray solution and rate of **MARKER DYE** applied per areas will allow the applicator to establish a rate that is functional and economical for each application. The more **MARKER DYE** you use, the darker your spray pattern. *Rates vary depending on turf color, turf height and spray application rate.*

Suggested Use Rates: 16 to 24 oz per 100 gallons of solution (125 to 190 ml per 100 litres). KNAPSACK SPRAYER: 1 oz per gallon (40 ml per 5 litres).

NOTE: According to the U.S. Environmental Protection Agency, Office of Pesticides and Toxic Substances, no clearance is required of this product under 40 CFR 180.1001 for use on non-food crops. This product is not approved or labeled for edible or food crop use.
