

BREAKER

Concentrated Anti-foaming and De-foaming agent for use with pesticide spray mixtures

CAUTION: Keep Out of Reach of Children

Some pesticide mixtures produce foam during mixing. Small quantities of Breaker added before adding pesticides will prevent foam from forming.

Breaker can be added after foam has formed but more time will be required to eliminate the foam.

Shake well before use

DIRECTIONS FOR USE: Fill spray tank $\frac{1}{2}$ full with water. Add Breaker at 7mL per 500 litres (0.25 oz per 110 Imp. gallons or 132 U.S. gallons). This bottle will treat 12,500 litres of spray mixture. (2750 Imp. gallons or 3300 U.S. gallons).

MEDICAL

May cause eye irritation. If contact occurs flush with water. Keep out of reach of children.

STORAGE: Do not freeze.

DISPOSAL: Follow all local laws.

NOTICE: Buyer assumes the risk from the use or handling of this product.
