

INGENIOUS HERBICIDE

Smart cleaver control made Simple

Got cleavers in your canola or cereal crop? INGENIOUS 75 DF gets cleavers.

INGENIOUS 75DF contains the powerful active quinclorac that acts systemically on cleavers both through the foliage and root system. With MRL on canola set, your cop is export ready. Just add to your tank – Smart cleaver control made Simple.

WEEDS MANAGED

- Post emergent control of green foxtail (including Group 1, Group 2 and Group 3 resistant biotypes), volunteer flax, cleavers (including Group 2 resistant), barnyard grass and suppression of annual and perennial sow-thistle.

REGISTERED CROPS

- Registered for use on spring and durum wheat, spring barley, canary seed, canola (Brassica napus - all varieties, including conventional, Roundup Ready®, Clearfield®, Liberty Link®, canola quality Brassica juncea, and tame mustard (brown and oriental).
