GENERAL INFORMATION

NutriSync D Is a Foliar Nutrient specially designed to supplement the nutritional requirement of various crops.

When used as directed this product does not supply all nutrients required by plants. It will not, by itself provide all the nutrients normally required by crops. To be used to supplement a soil fertility program based on soil tests as part of a complete fertilizer program.

CAUTION

Caution: This fertilizer contains boron (B) and molybdenum (Mo) and should be used only as recommended. It may prove harmful when misused.

KEEP OUT OF REACH OF CHILDREN – CAUTION - May be harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. Avoid contact with eyes, skin and clothing. Avoid contact with open cuts or sores. Avoid breathing vapors. Use with adequate ventilation. Eye protection and gloves are suggested when handling undiluted product. Wash thoroughly after handling and using this product. In case of contact, flush with water. Get medical attention for eyes. Nausea and vomiting could be expected upon large dose ingestion. The acute ingestive effects are described as nausea, chills, and diarrhea. Eye or skin contact with these products could cause irritation (particularly in sensitive persons), and respiratory irritation could be expected from the unprotected inhalation of fertilizer mists. Product users should avoid prolonged or repeated skin contact by wearing impervious gloves, long sleeve shirt, long pants, socks and rubber boots. Goggles for eye protection are recommended.

RESPIRATORY PROTECTION: Not normally required, if vapors are too strong wear a NIOSH approved respirator for organic vapors.

EYE PROTECTION: Chemical goggles or shielded safety glasses.

SKIN PROTECTION: Wear protective clothing: long-sleeved shirts and pants, hat, rubber boots with socks. Wear rubber or chemical resistant gloves.

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

STORAGE and DISPOSAL

Store in original containers only. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. Store at ambient temperatures.

PRODUCT DISPOSAL: If product cannot be used as intended, disposal should comply with provincial regulations. Avoid contaminating water by disposal of equipment washwaters or other product wastes.

CONTAINER DISPOSAL: Do not reuse empty container. Rinse thoroughly, adding rinsate to mixing tank. Then offer container for recycling or dispose of in a sanitary landfill.

MIXING INTRUCTIONS

TANK MIXES: Do not tank mix with agrichemical products that are alkaline in nature. Make sure the final spray mix is below pH 7.0

APPLICATION RECOMMENDATIONS

Crop	Application Rate/ ml. product per acre	Application method /Timing	Remarks
Legume vegetables (Succulent or Dried), such as, beans, peas, soybean broad bean, lentil and others	148-296 mL product	1st application at v2- v3. May repeat applications at 7-10 day intervals until fruiting stages	18.95 - 37.9 L spray volume per acre (46.83 - 93.65 L spray volume per hectare)
Pome/Stone fruits, such as apple, apricot, cherry, plum, plumcot and peach	1893 mL product	1st application at 7- 14 days prior to flowering. 2 nd application at full bloom. 3 rd application at small fruit stage	379-758L spray volume per acre (936.53 – 1873.06 L spray volume per hectare)
Nut crops such as almond, walnuts	1834 mL product	1st application at early flowering stage Repeat applications at 7-10 day intervals until harvest, as required volume	379-758L spray volume per acre (936.53 – 1873.06 L spray volume per hectare)
Canola	148 mL product	1st application at 5- 10% bloom. Repeat applications at 7-10 day intervals until fruiting stages.	18.95-75.8L volume per acre (46.83 – 187.31 L spray volume per hectare)
Other crops	1:200 dilution rate	1st application at 5- 10% bloom. Repeat applications at 7-10 days
