**DIRECTIONS FOR USE**

Spot Treatment Tablet (STT) 0.01-0.01-0.3 plus 0.2% Iron should be used as required. It will not, by itself provide all the nutrients normally required by turf. It should be used as part of a nutritional program. Repeat applications as necessary.

Spot Treatment Tablet (STT) 0.01-0.01-0.3 plus 0.2% Iron is specifically designed for spot treatment through the proper hose-end applicators.

Spot Treatment Tablet (STT) 0.01-0.01-0.3 plus 0.2% Iron is inserted into the applicator vessel of the hose-end device and as water pours over the tablet, it slowly dissolves. Rate of dissolution will depend upon water pressure and temperature.

One tablet should be enough to cover approximately one golf green in 20-30 minutes or alternatively, spot treat 6-7 golf greens. Spot Treatment Tablet (STT) 0.01-0.01-0.3 plus 0.2% Iron does not need watering in after application.
