

AWAKEN[®] ST

AWAKEN[®] ST is a unique nitrogen, potash and a balanced micronutrient seed treatment package including boron, copper, iron, manganese, molybdenum plus zinc. **AWAKEN ST** puts nutrients where a germinating crop needs them... on the seed. **AWAKEN ST** is a growth-enhancing seed treatment for progressive cereal growers in pursuit of maximum yield and return on investment.

PRODUCT FEATURES:

- Easy flowing and convenient to use clear liquid
- May be applied on its own, blended or applied sequentially with traditional seed treatments
- Easily applied with conventional seed treating equipment
- Seed-safe, non-dusty formulation

PRODUCT BENEFITS:

- A larger robust root system
- Quicker seedling emergence
- Improved overall plant health and vigor
- Better crop potential

APPLICATION RATES:

- For use on wheat, barley and oats at 390 ml (undiluted) per 100 kg of seed*
- Corn at 260-390 ml (undiluted) per 100 kg of seed*

**Always read and follow label directions. Do a jar test when mixing other products.*
