

100% Active, Non-Ionic Surfactant, Defoamer

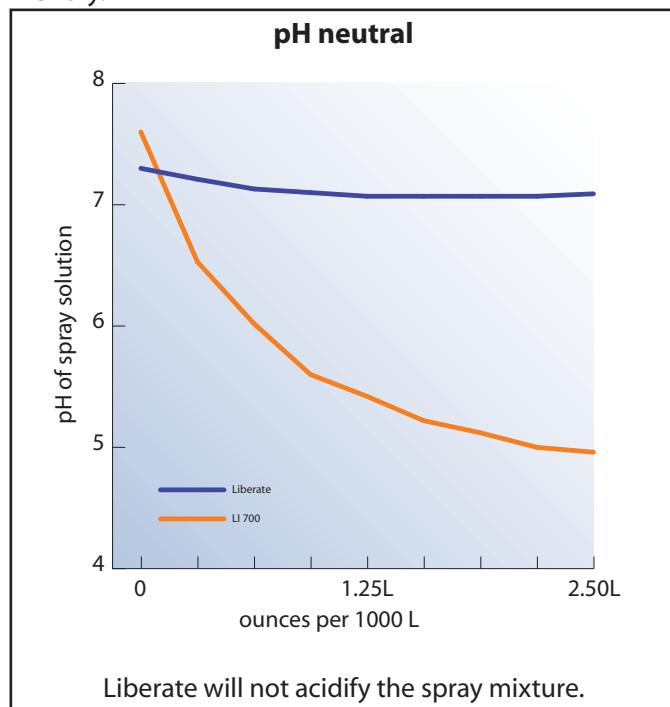

Liberate® is an uptake enhancing surfactant blend. **Liberate** is designed for use with pesticides that recommend a non-ionic surfactant. **Liberate** contains the unique patented Leci-Tech® technology that is soybean-based and works especially well with systemic chemistry. **Liberate** provides uniform droplets allowing complete coverage and excellent control. Additional defoaming properties make **Liberate** very user-friendly.

PRODUCT BENEFITS:

- 100% active spreader/penetrant contains soy oil derivative
- Odorless, low-foaming, neutral pH formulation
- Provides drift reduction, increased droplet adhesion, excellent penetration and deposition and is user friendly

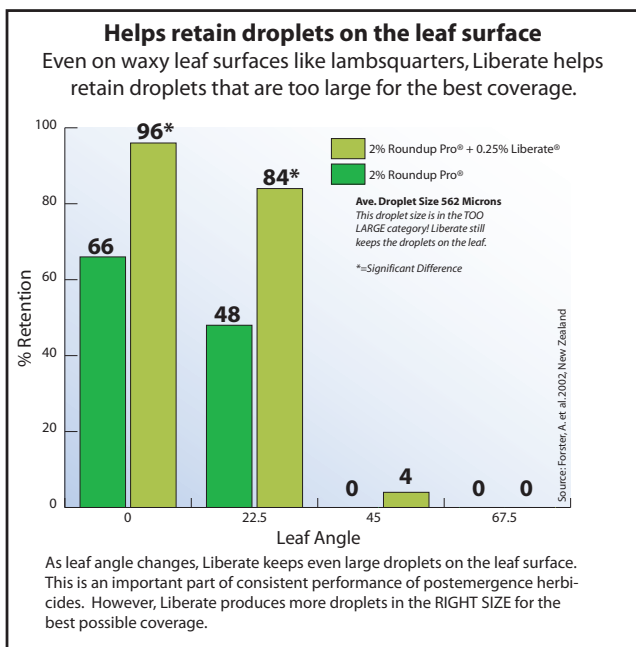

TARGET CHEMISTRIES:

Sulfonyl urea (SU) herbicides, fungicides and those chemistries requiring a neutral pH

APPLICATION INFORMATION:

- Apply **Liberate** adjuvant at a rate of 1.0 to 2.5 L per 1000 L of spray solution (0.1 – 0.25 v/v).* Consult label for specific rates with products listed on the label. Follow tank mix partner labels for complete mixing instructions
- Note – do not use **Liberate** on grapes

*Always read and follow label directions.
