

Superior Grass Control combined with Control of Nightshades & Waterhemp

# FLAG LQD

## HERBICIDE

### Quality Herbicide at a Sharp Price Point

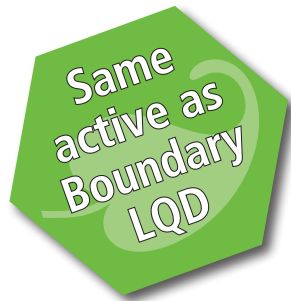

FLAG LQD is a selective pre-plant or pre emergence herbicide for the control of grasses, and troublesome broadleaved weeds. Flag LQD is a convenient premix of two of the most trusted chemistries in soybean production -Metolachlor (and R-enantiomer) and Metribuzin. This Dual action formula enables your soybeans to get out of the ground without early weed competition

**ACTIVE INGREDIENT: Metolachlor (and R-enantiomer) 628g/l and Metribuzin 148g/L.**

### Registered Eastern Canada Crops:

- Soybeans
- Potatoes
- Transplanted processing tomatoes

### Pivotal Benefits:
