

SureMAG™

Foliar or Soil Applied

SureMAG™ (6% Magnesium Acetate) is a unique source of liquid magnesium that delivers significant benefits over other foliar and soil applied magnesium sources. **SureMAG** has been designed to deliver maximum magnesium uptake with minimal potential for plant phototoxicity.

PRODUCT BENEFITS:

- Agronomically superior form of magnesium
- Superior foliar uptake and translocation within the plant
- Excellent crop safety

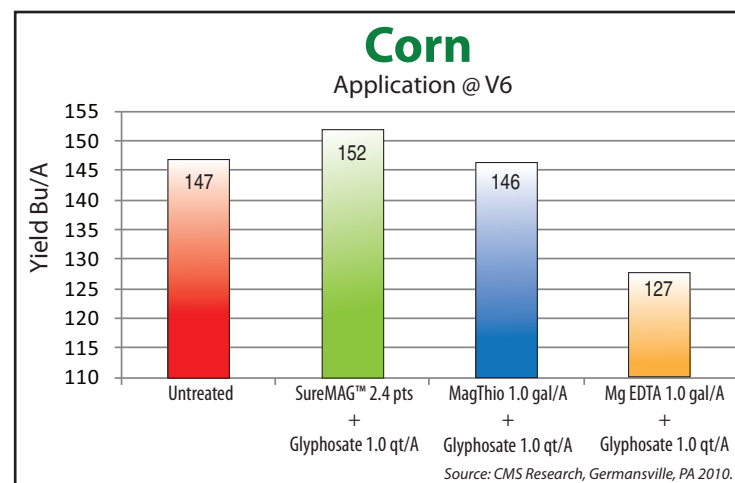

APPLICATION INFORMATION:

SureMAG can be used on all agricultural, horticultural and ornamental crops to enhance plant development and correct magnesium deficiencies.

GENERAL APPLICATION:

Apply 1.4 to 14 litres of **SureMAG** per hectare (0.6 - 5.5L/ac) in 100-150L/ha water (10-15 gal/ac).*

It is recommended that soil and/or tissue samples be analysed to determine actual rates of application prior to using this product.

*Always read and follow label directions.
